Ghritak Jyoti Kalita

Software Developer

👤 About Me

I'm a results-driven software developer proficient in React Native, ReactJS, and various technologies. I excel in creating mobile apps and web solutions, working collaboratively to deliver exceptional user experiences. Committed to continuous learning and innovation, I'm eager to contribute my skills to dynamic projects and teams.

💼 Employment History

React Native Developer, TGG Technologies Pvt Ltd

Sep 2023 – Present

- Lead development of Android and iOS apps (customer, management, partner, delivery etc.) using React Native. Enhance app performance and user experience through ongoing updates and improvements.
- Collaborate with a co-partner PHP developer to ensure seamless front-end and back-end integration.

Software Development Intern, AID24x7

Feb 2023 – Aug 2023

- Collaborated with a team of three member to develop Android and web applications for AID24x7 using React Native and ReactJS. Ensured secure user authentication using bcrypt hashing algorithm and JSON Web Token and MongoDB and Firebase for databases. Contributed to feature implementation, testing, API integration and error handling.
- Our hosting utilised AWS S3 and VM instances, with Nginx serving as a reverse proxy and PM2 for process management. Gained valuable experience in mobile app and web development, teamwork, and delivering results.
